

Van Sutherland

Van Sutherland is the GIS Coordinator for Capital Metro.

According to his co-workers Van knows many of the strengths and weakness of GIS to an astounding degree and is always willing to do anything he can to help his co-workers with any issues that arise relating to GIS.

He is enjoyably enthusiastic about all things GIS and stays on top of all of the latest technology and helps GIS users incorporate new GIS features into what they're doing at Capital Metro.

He works tirelessly to make the GIS run as smoothly as possible at Capital Metro.

As Central Texas GIS User Group first ever GUS recipient please give Van Sutherland your Congratulations for a GIS job well done.
